Hp smart tank plus 551 review

overview test results is about discussions Type All in One Technology Inkjet Wireless Yes Color Yes SuperTank Yes The HP Smart Tank Plus 551 is a compact supertank printer. Thanks to the refillable ink tank design, you get a high page yield with black and colored ink before they need to be refilled. This printer also has an extremely low cost-per-print ratio for all ink. However, it takes a long time to print both black text and color documents, which is not ideal if you have many pages that need to be processed. This printer also lacks a sheet scanner, making it quite limited for work purposes. That being said, it has a low cost and the simple features should be enough for casual use. 7.6 Family 5.6 Small-Home Office 8.2 Student 6.9 Black & White 7.3 Casual Photo Update 6/16/2020: Added a Casual Photo usage and removed Usage Mixed. Update 6/10/2020: Converted to Test Bench 0.8.1. Sort category: V- RATINGS Family Small-Home Office Student Black & White Casual Photo Category All Design Printing Mobile App And Connectivity The HP Smart Tank Plus 551 has a mediocre design. It has a sturdy plastic build with visible windows at ink level, so you can see how much ink you have left while you print. This printer also has removable print heads that can be replaced if they become damaged or clogged, which can extend the life of your printer. If you need to remove the print heads or if you're dealing with a paper jam, the front display opens so you can reach them easily. However, when you open this screen, there is not much room for your fingers around the print heads, which can be a pain if you need to replace them or remove paper jam. However, there is no back access for paper jam, and you also do not scan larger items with its flatbed, because the hinges of the lid cannot be extended to accommodate them. Height 6.3 inches (15.9 cm) Width 17.6 inches (44.7 cm) Depth 14.7 (37.3 cm) Weight 11.2 lbs (5.1 kg) The HP Smart Tank Plus 551 is a lightweight and compact supertank printer. It's not very high and shouldn't have too much space at your office or dorm desk. Screen screen Yes Screen size 2.0 (5.0 cm) touchscreen No The HP Smart Tank Plus 551 has a bad screen. It uses a very limited display, which can't show anything other than individual ink levels and an exclamation point if something is wrong. The light on the top of the screen also flashes red if there is a problem. There are also seven physical buttons around the screen. Unfortunately, the screen can't tilt or rotate for better viewing angles. However, it's still easy to see if you're sitting or standing, and even if you're looking at it from the side, you can still see the screen. If you want a similar ink tank printer with a better display, check out the Epson EcoTank ET-15000. HP Smart Tank Plus 551 ink bottles 1x 31 Cyan 1x 31 Magenta 1x 31 Yellow 1x 32XL Black 1x Black Print Head 1x Colour Print Head Photo Cartridge Photo Cartridge No Color Color 3 Black cartridge model HP 32XL Black tested black page yield 235.00 prints Estimated black page yield 4465 prints Color cartridge model HP 31 C/M/Y Tested color page yield 381.93 prints Estimated color page yield 8320 prints third party cartridge no high yield cartridge no high yield cartridge no drum unit No drum unit The Smart Tank Plus 551 has an excellent supertank system. It uses four ink tanks that you refill yourself and it delivers an incredibly high amount of both black and color pages before any of the tanks need to be refilled. It also has removable ink heads that can be replaced if damaged or clogged, which can extend the life of your printer. While it is technically possible to fill the supertank with third-party ink, we haven't tried it and don't recommend it because low-quality ink can damage the print heads and you may need to replace them. The use of third-party ink may also invalidate your warranty. Scanner Ja Scan Flatbed Yes Scan Sheetfed No Automatic Automatic Document Feeder No Duplex Scanning No Scan Resolution 1200 DPI Scan Color Depth 24 bit Flatbed Scan Size 8.5 x 11 Fax No Copy Yes The HP Smart Tank Plus 551's scanning functions are mediocre. It only has a flatbed scanner if you scan many pages, each page needs to be done one by one. This printer also lacks a fax function. If you need automatic document input to scan large projects, check out the Epson EcoTank ET-4700. Black cartridge price 16.99 US\$ Color cartridge price 44.97 US\$ Black only print 0.004 US\$ /print Color print 0.005 US\$/print Photo Print 0.014 US\$/print Ink subscription No The HP Smart Tank Plus 551 has an exceptional cost-per-print ratio. Black, color and photo printing are very cost effective. However, each of the bottles can only be purchased separately as HP does not offer combo packs at this time. Black Only Text Document 5 PPM Color Document 3 PPM Photo Printing Time 70.0 sec First page from time (black only) 13.0 sec Duplex Print manual input tray capacity 100 pages The HP Smart Tank Plus 551 has poor print speed. It takes a while to print the first page of a black-text document and the following pages are not that much faster. Color documents are also incredibly slow, which can be tricky when trying to print out slides for the class. This printer also takes more than a minute to be fully finished printing 4 x 6 photos. If print speed is important to you, the Epson EcoTank ET-2760 is another printer with a supertank system that prints faster. Average color dE 8.61 Update 16/06/2020: The 0.8.1 test bench update increased the color accuracy score of this printer. This printer has a great color accuracy. Although it should be more than enough for it may still not be the best choice for those who need a more accurate color rendition of their printer. Borderless printing Yes The smart tank plus 551's photoprint quality is okay. The colors are well defined and greens especially have a nice tone to them. However, however banding and color present on the grayscale and some areas of the photo are somewhat grainy. These results are based on the actual physical photo, not the scanned image listed above, which may not be representative of the photoprint quality of the printer. Letter (8.5 x 11) Yes legally (8.5 x 14) Yes Tabloid (11 x 17) No A6 (105 x 148mm) Yes A5 (148 x 210mm) No A4 (105 x 148mm) 210mm x 297mm) Yes Photo (2 x 3) No photo (4 x 6) Yes Photo (5 x 7) Yes The HP Smart Tank Plus 551 can support most paper sizes and the rear input tray has a width controller. Mobile app and connectivity Ethernet No USB input to computer Yes Bluetooth No Wi-Fi via router Yes Wi-Fi Direct Yes external storage support No Apple AirPrint Yes Mopria Print Service Yes The HP Smart Tank Plus 551 has good connectivity features. Connect it wirelessly via Wi-Fi via your router or Wi-Fi Direct. You also print, copy and scan things directly from your mobile phone if you have Apple AirPrint or Mopria Print Service. On the other hand, there is no Bluetooth support and you can't use ethernet cable or print directly from an external storage device, such as a USB key. Mobile app Yes App Name HP Smart iOS Yes Android Yes Photo (JPEG, PNG) Yes PDF Yes Microsoft Office Files No Text Files (TXT) No web pages (HTML) No The HP Smart app is decent. You print, copy and scan directly from the app and even scan documents with your phone's camera. There is also a mobile fax feature, so you can send documents or images from your phone. The HP Smart Tank Plus 551 is a supertank printer. The ink tanks deliver many pages at an affordable cost per print, especially compared to non-supertankje printers like the HP OfficeJet Pro 7740 or the Canon PIXMA iX6820. However, while it also has a fairly compact design, it is because this printer lacks a sheet scanner, and it will not be suitable to meet the needs of small/home offices. It also has a very slow printing speed for both black and color documents and photos. Check out our recommendations for the best inkjet printers, the best home printers and the best printers with cheap ink. The Epson EcoTank ET-4700 is a slightly better printer than the HP Smart Tank Plus 551. They both have excellent cost-per-prints and high yields for black and color documents like most supertanks. The Epson has a better screen and the scanner has an automatic document input. The Epson EcoTank ET-2760 is generally better for most applications than the HP Smart Tank Plus 551. They both use supertank ink systems, and the Epson has a higher black and white page yield, while the HP prints more pages in color. The Epson prints faster, has more connectivity options, and you print different types of files from the corresponding app. The HP has much better color accuracy and photos look a little better from this printer. In general, the HP Smart Tank Plus 551 and the Epson EcoTank ET-2720 are very The Epson has a better screen, it prints higher quality photos and the replacement ink is cheaper. However, the HP delivers more black and color pages per cartridge and it has much better color accuracy. The Epson EcoTank ET-4760 is a better overall printer than the HP Smart Tank Plus 551. While both printers use an extremely high yield supertank system, the Epson can yield slightly higher pages using its black ink tank. The Epson also has automatic document input and an integrated fax function, and it's faster when printing black text and color documents. It also has an Ethernet port and a better companion app for printing, scanning and copying directly from your smartphone. Conversely, the HP has better color accuracy, it can provide more color pages and the cost per print for color documents and photos is slightly lower, although both printers have very low cost per print. The Epson EcoTank ET-15000 is better than the HP Smart Tank Plus 551. The Epson is better built with a display and sheet scanner, and it prints pages much faster. However, the HP has a much higher color page yield and it has much better color accuracy. The Brother HL-L2390DW and the HP Smart Tank Plus 551 are two very different printers. The Brother is a monochrome laser printer and is great for those who print a lot of black text documents. While it doesn't yield as many black pages as the HP, it still has an extraordinarily low cost per print, and it's much faster when printing documents. On the other hand, the HP is a supertank printer, so it can yield a lot of both black and color pages at a very low cost-per-print. It can print okay photos, and it has great color accuracy. However, the print speed is very slow for both black and color documents as well as photos. + See more
